EU Marine Equipment Directive (MED)

Directive 96/98/EC

Notified Body - No.: 0575/2016

The EU Directive on Marine Equipment 2014/90/EU, repealing Council Directive 96/98/EC requires that certain marine equipment shall be certified for the specific application and specifies basic requirements for manufacturers as well as products. This conformity assessment procedure applies both to the design and the production phase.

The purpose of the Marine Equipment Directive (MED) is to:
Enhance safety at sea and the prevention of marine pollution through uniform application of international instruments (IMO Conventions, Resolutions, Circulars and relevant international testing standards) related to the equipment in question.
Ensure the free movement of equipment within the European Economic Area (EEA), consisting of the EU and EFTA Member States

The testing facility is recognized by:

- the International Maritime Organization, as a national reference testing facility for the tests required by the International Code for Application of Fire Test Procedures (FTP Code)
- the United States Coast Guard, for all the tests required by the IMO FTP Code
- the Italian Administration, as a notified company in application of the European Marine Equipment Directive (MED).
